

Exploring[®]

Sponsored by Southeastern Divers Inc.

You are invited to Explorer Post 33's "Dive Briefing"

When: Saturday October 23, 10:00 AM

Where: Southeastern Divers Inc. at 908-A Bob Wallace Ave. SW in Huntsville

What's going on? Well many times SDI has been asked by parents "What is available for my son or daughter to participate in SCUBA with others his/her own age?" and that's always been a difficult question to answer...

That is until now

Southeastern Divers is sponsoring Explorer Post 33!

You might ask "**So, what is an Explorer Post and what does it do?**"

The answer is that an Explorer Post is a group of young men and women ages 14 to 20 with a similar interest in an activity or career path. In this case, Post 33 is focused on SCUBA diving, its related opportunities and the careers associated with it.

As for what an Explorer Post does... Well, they do pretty much whatever they want to! But mostly, **They just have FUN!**

The Explorer program was started by the Boy Scouts of America many years ago, but it does not involve merit badges or ranks. Instead, it provides young people the opportunity to "Explore" careers they may be interested in pursuing

In the case of Explore Post 33, that means focusing on the many possibilities of working in the dive industry. This could include the recreational dive industry, commercial diving, military diving, rescue squad diving, dive medicine, marine biology, and just about anything else you can think of that people do underwater as a career! Its an open slate and since normal classes and classrooms just won't do, we'd have to make other arrangements such as, taking a weekend trip to Panama City to visit the U.S. Navy Diving and Salvage Training Center to learn how the Navy trains their divers? "relax after class".

This meeting is designed to give young men and women a chance to learn more about what Explorer Post 33 is all about. There is no pressure to join. Please feel free to attend out of simple curiosity. Parents are both welcomed and encouraged to attend with their son or daughter.

Please call Thomas Wilber (256-457-0587) or Greg Ogle (256-536-8404) and let us know if you are planning on attending so that we may better plan the meeting.

The World is 30% Land and 70% Water IT'S A DIVERS WORLD!
